The Resilience Lab
Dialogue for a Healthy and Sustainable Ireland
A Learning Journey in Cloughjordan Ecovillage

Friday 8th June - 11.00 - 16.00
WeCreate Workspace in Cloughjordan Ecovillage
This is an invite only session. If you are interested in attending email convergence@cultivate.ie

Effective dialogue and civic engagement will be critical in order to make the shift towards a low-carbon economy and support the achievement of the Sustainable Development Goals (SDGs).

This event will bring together a diverse group of community leaders and researchers with representatives from civil society organisations, local authorities, state agencies and Government, with the purpose of learning from one another and sharing experiences in civic engagement and dialogue.

The session will includes:
• A tour of Cloughjordan Ecovillage, Ireland’s leading sustainable community project
• An opportunity to share perspectives on civic engagement from different perspectives
• Transitioning to a Post-Carbon Society - A Briefing By Peadar Kirby
• A local lunch from the rich ecosystem of food producers based in Cloughjordan
• A briefing on ‘Three Horizons’ a new futures-oriented approach to facilitating dialogue as well as for creating useful and robust action plans

Supported by the EPA as part of the Government’s National Dialogue on Climate Action.
